

# A Method of Divination

01

Reasons to sit on a branch:

It can be hard to sleep  
thinking about a branch.

It can be lonely to sit on  
a branch. Maybe find a  
friend to sit on a branch  
with you. That might help.

It is broken when you find  
a branch to sit on.

It cannot be bought on the  
internet for a fair price.

It comes in different  
shapes.

FIGURE 1.

It comes in a spectrum  
of roughnesses. It can be  
touched any way you want  
it to be touched.

It is hard to store a  
branch at home.

It takes time to find a  
branch that fits my  
personality.

It is not ideal to sit on.

It can rot.  
It is a pain to put in a car.

- sit on a  
branch

It sticks out alot.

It is far from  
inconspicuous while  
sitting on it in public.

It is a hobby. So when  
my grandparents ask me  
what I have been doing,  
I say I sit on a branch.

It is a reason to move  
somewhere quiet.

It can be stolen by  
a gardener.

It doubles as an exercise  
routine.

It requires concentration.

It requires wearing pants  
not shorts.

It requires leisure and  
food to eat.

It requires imagination  
and innovation.

It requires an indoor or  
outdoor space.

It is fun.
